

Future Opportunities: Aquaculture Collaboration

Monday, September 9th
4:30 - 6:00pm

We will be meeting in the lobby of the BSS building from 4:30 to 5:30, followed by a tour of the fish hatchery from 5:30 to 6:00. You are welcome to attend any portion of the event.

For further information about aquaculture, please visit the following websites:

- [NOAA Fisheries website](#)
- [NOAA-USDA Alternative Feeds Initiative](#)
- [National Aquatic Animal Health Plan](#)

The Office of Research, Economic & Community Development is hosting a visit by representatives of NOAA and the California Department of Fish & Wildlife to discuss aquaculture. This will be an opportunity to discuss how HSU's interests in aquaculture can be tied to the aquaculture efforts at the state and national levels. The representatives are especially interested in meeting with faculty interested in aquaculture-related issues. The attendees include:

- ❖ **Dr. Michael Rubino, NOAA**
Director of the Aquaculture Office in Silver Spring, Maryland
- ❖ **Dr. Michael Rust, NOAA**
Science Coordinator in the Office of Aquaculture
- ❖ **Diane Windham, NOAA**
Southwest Regional Aquaculture Coordinator
- ❖ **Randy Lovell, CA Department of Fish & Wildlife**
State Aquaculture Coordinator
