SUBJ: Community Borrower Fee Increase

A twenty-five dollar fee (or \$10 each "rolling" trimester) was imposed on community borrowers in 1979 as the result of Proposition 13. It seems appropriate to initiate a revision after the passage of twelve years.

I propose a new annual fee effective July 1, 1991 (or at card renewal date) of \$35 (or \$14 each trimester). Funds collected are deposited in a trust account and are expended on library materials.

I prefer to spare you detail unnecessary to the approval of this proposed revision. Let me know if additional information is required.
