

Wildlife Ecology Seminar Series

~ Fall 2012 ~

13 Sept	Jeff Black Professor, HSU Wildlife	<i>Study abroad experience</i>
20 Sept	Vasiliy Baranyuk Russian Biologist	<i>Wrangel Island Ecosystem and Snow Geese</i>
27 Sept	Scott Black Executive Director, The Xerces Society for Invertebrate Conservation	<i>Too many species, too little information, and not enough time: a multi pronged approach to invertebrate conservation</i>
4 Oct	Tim Bean Lecturer, HSU Wildlife	<i>Counting rats from space: Spatial modeling for monitoring the giant kangaroo rat</i>
11 Oct	Mike & Leslie Anderson Professional wildlife photographers	<i>Photobirding: Arcata and Beyond</i>
18 Oct	<i>The Wildlife Society National Meeting</i>	<i>No seminar</i>
25 Oct	Daniel Barton Lecturer, HSU Wildlife	<i>Do interspecific differences in migratory behavior explain differences among species in dispersal and population dynamics?</i>
1 Nov	Jeffrey Kane Assistant Professor, HSU Forestry	<i>Climate change, fire, and tree death: Positive feedbacks and its potential consequences to wildlife</i>
8 Nov	Barbara Clucas Lecturer, HSU Wildlife	<i>A cross-continental comparison of ecological connections between humans and birds in urban areas</i>
15 Nov	Rick Golightly & Pia Gabriel Faculty & Staff, HSU Wildlife	<i>Marbled Murrelets and Steller's Jays - managing the coexistence of two Redwood forest natives</i>
22 Nov	<i>Thanksgiving break</i>	<i>No seminar</i>
29 Nov	Pete Marra Smithsonian Migratory Bird Center	<i>Studying Birds in the Context of the Annual Cycle: Carry-over Effects and Seasonal Interactions</i>
6 Dec	Will Goldenberg MSc candidate, HSU Wildlife	<i>Steller's Jay responses to campgrounds within Redwood National and State Parks</i>

Thursdays 4-5 pm

Wildlife & Fisheries building, Room 258
