

Wildlife Ecology Seminar Series

Spring 2015

January 22	Laura Weisel , Wildlife Dept, Humboldt State University	Thesis Defense: Northern spotted owl and barred owl habitat selection in coastal northwestern California
January 29	The Wildlife Society, Western Section Conference , Santa Rosa	(NO SEMINAR)
February 5	Graduate Student Talks	(CLOSED SESSION)
February 12	Sean Matthews , Klamath Landscape and Fisher Coordinator, Wildlife Conservation Society	Translocation and Species Conservation: Fishers on a Managed Landscape in California
February 13, Friday 4 PM	Brian Smith , Research Ecologist, Wildlife Conservation Society	Making the whole bigger than the sum of its parts in marine protected areas for cetaceans in Bangladesh
February 19	Graduate Student Talks	(CLOSED SESSION)
February 26, Lamberson Lecture, Native American Forum	Brian Dennis , Professor, Dept. of Fish and Wildlife Sciences/Dept. of Statistical Sciences, University of Idaho	TBA
February 27, Friday 4PM	Chris Clark , Assistant Professor of Biology, UC Riverside	'Singing' feathers, animal aeroacoustics, and the evolution of complex displays
March 5	Jared Wolfe , Klamath Bird Observatory/Redwood Sciences Lab	Bird conservation in the country least known to science: an introduction to the Equatorial Guinea Bird Initiative
March 12	Kent Barnes , Wildlife Biologist, Yurok Tribe	A case study in habitat assessment: on the path to California Condor recovery in the Pacific Northwest
March 19	Spring Break	(NO SEMINAR)
March 26	Barbara Clucas , Lecturer, Wildlife Dept, Humboldt State University	Interactions among humans, cats and birds in Arcata, California
April 2	Jim Moore , Professor, UC San Diego	Savanna chimpanzees: studying ape behavioral ecology at the margins
April 9	Brian Hudgens , Research Ecologist, Institute for Wildlife Studies	TBA
April 16	Graduate Student Talks	(CLOSED SESSION)
April 23	Jeff Jacobsen , Marine mammal biologist / Bioacoustician, Bio-Waves, Inc.	Cetacean Bioacoustics: new technologies, insights, and mysteries
April 30	Senior Poster Session , location TBD	(NO SEMINAR)
May 5	John Marzluff , Professor, University of Washington	Welcome to Subirdia: a look at avian ecology on Seattle's urban fringe

Thursdays 4-5 pm wfb258,
