

# Next Generation Wildlife EcoSeries

We recognize that systematic racism continues to impose barriers for BIPOC seeking careers in natural resources.

This series:

- Highlights achievements and amplifies voices of early career wildlife biologists
- Spotlights BIPOC scientists who are role models for the next generation
- Opens a forum to discuss how our field can move forward to reduce barriers and become a more inclusive community

## Schedule

Fri 10/2 @ 4pm PDT

Tykee James  
National Audubon Society  
Wildlife Observer Network

Fri 10/9 @ 4pm PDT

Nyeema Harris  
University of Michigan
