

### Project:

Create a student led Club at Cal Poly Humboldt: Golf Club. This project involves establishment of the club values and a club constitution with the help of founding members approved by the Clubs Coordinating Council meeting committee.

**Presenter:** Alexandria Monney, Recreation Administration Major

### Purpose

The purpose of this club is to provide an affordable option to learn the sport, and to be inclusive by welcoming people from all walks of life.

### Project Inspiration

- I chose to initiate this organization because I have the passion, credibility and experience to instruct and coordinate groups of people regarding the game of golf
- There are also limited opportunities for students who play the game of golf but nearby golf courses have great discounts for college students that could be better utilized

**GOLF CLUB**

### Expectations

- Welcoming event for new members: two hour free lesson at a local golf course
- Set a standard for expected monthly meetings; to help each other advance their swing technique, followed by a round of golf.

### Fundraising

- Club funds will be earned through planned tournaments at nearby golf courses
- Other uses of funds will be for club uniforms and other golf learning tools
- The highest goal of fundraising is to gift a full set of golf clubs to those in financial need, to encourage playing after college

### Goals

1. Initiate the intent to organize a club.
2. Create the foundational standards for the club to be approved and successful.
3. Kick off event: first meeting as an official club with founding members.
